Residential Duct Design

Following ACCA Manual D procedures, you will be sizing your duct systems with little effort. Import systems from our AccuLoad software or use as a standalone program, with no limit on systems, runouts, etc. CFM, Friction rate, velocities and duct sizes are automatically calculated.

- Similar layout to AccuLoad
- No more designing duct system by rule of thumb
- Auto-calc friction loss, static pressure velocity and CFM
- Incorporates Drag/Drop features
- Add multiple systems
- Add supply trunks
- Add supply runouts
- Add return trunks
- Add return runouts
- Ability to choose exact duct
- Multiple reports to choose from
- **Unlimited Licensing**
- **Unlimited Tech Support**

Coming Soon:
 AccuDuct Material List

Make things easier, import your load calculations and CFM values directly from our AccuLoad software program, which is ACCA Approved based on Manual J 8th Edition procedures.
